## **GYLA Observers' League**

On June 13, 2014, the Georgian Young Lawyers' Association conducted the presentation of „Observers' League“.

The main goal of the Observers' League is ensuring active engagement of the experienced observers of GYLA in the electoral and local self-government reform. We consider that it is impossible to ensure desirable standards of conducting the elections that are important for the country, through the pre-election, election day and results summarization period monitoring only. In-between the elections it is necessary to ensure public engagement in the process of improving the legislation, decision-making, awareness-raising and other.
